

Ordering Empower AI services on NASA SEWP VI.

How to scope, quote and place a Category B order with Empower AI, and who to call at each step.

CONTRACT NUMBER 80TECH26D0446	CONTRACT TYPE GWAC, multiple-award IDIQ	CATEGORY · GROUP B · B1 Unrestricted
NAICS 541512	ORDERING PERIOD Nov 1, 2026 – Oct 31, 2036	SEWP FEE 0.34%, included in our price
UEI HC6QJAM2F4E3	CAGE OMX49	FAIR OPPORTUNITY FAR 16.505(b)

Is it in scope?

Category B covers customized, enterprise-wide ITC/AV service solutions: large-scale requirements that span multiple departments, locations, customers or field offices, delivered as managed and shared services at government or contractor sites worldwide. Product-only requirements are not in scope for Category B. Technical areas: enterprise-wide network services, iT managed services, enterprise-wide innovation services, iT service management, enterprise service program integration, enterprise-wide information and data analytics, enterprise-wide application services and software, enterprise-wide cybersecurity services, enterprise-wide cloud services, enterprise-wide digital multimedia and technical communications, program management and ancillary services and supplies.

Five steps to an order

1. Confirm scope: Category B is for enterprise-wide ITC/AV service requirements. Product-only buys belong in other SEWP categories.
2. Request quotes through the SEWP RFQ tools. Contract holders are given fair opportunity at the individual order level under FAR 16.505(b); selection documentation stays with your procurement office.
3. Choose the order type: firm-fixed-price, time-and-materials, labor-hour, fixed-price award fee, fixed-price incentive fee, fixed-price with economic price adjustment, or a hybrid of these.
4. Send the signed order to the SEWP Program Office, which reviews every order before the contract holder accepts it, unless your agency holds an exemption.
5. The 0.34% SEWP fee is already included in our quoted price and is not listed separately.
